TASER® Conducted Electrical Weapons: Physiology, Pathology, and Law Mar 25 2022 TASER® Conducted Electrical Weapons are rapidly replacing the club for law-enforcement control of violent subjects within many countries around the globe. A TASER CEW is a hand-held device that delivers a 400-volt pulse with a duration tuned to control the skeletal muscles without affecting the heart at a distance of up to 6.5 meters over tiny wires. If necessary, it begins with an arcing voltage of 50,000 V to penetrate thick clothing; the 50,000 V is never delivered to the body itself. Due to the widespread usage of these devices and the widespread misconceptions surrounding their operation, this book will have significant utility. This volume is written for cardiologists, emergency physicians, pathologists, law enforcement management, corrections personnel, and attorneys.

Policing Protest Jun 23 2019 In *Policing Protest* Paul A. Passavant explores how the policing of protest in the United States has become increasingly hostile since the late 1990s, moving away from strategies that protect protesters toward militaristic practices designed to suppress protests. He identifies reactions to three interrelated crises that converged to institutionalize this new mode of policing: the political mobilization of marginalized social groups in the Civil Rights era that led to a perceived crisis of democracy, the urban fiscal crisis of the 1970s, and a crime crisis that was associated with protests and civil disobedience of the 1960s. As Passavant demonstrates, these reactions are all haunted by the figure of black insurrection, which continues to shape policing of protest and surveillance, notably in response to the Black

Lives Matter movement. Ultimately, Passavant argues, this trend of violent policing strategies against protesters is evidence of the emergence of a post-democratic state in the United States. [Police Practices and Civil Rights in New York City](#) Feb 21 2022 On May 26, 1999, the U.S. Commission on Civil Rights conducted a hearing in New York City to examine current police practices & their impact on civil rights in the community at large. The Commission had a strong interest in studying the methods used by the city to balance crime fighting with the exercise of appropriate restraint, particularly following the highly publicized tragedies involving Abner Louima & Amadou Diallo. This report is intended to offer insights into some of the tensions that exist between the New York Police Dept. & the communities that it serves. Chapters: recruitment, selection, & training; police-community relations; & civilian complaints.

[NYPD Green](#) May 27 2022 "In the tradition of bestsellers like *Blue Blood* comes a book that takes us inside the New York City police department and offers a glimpse at the grit, the glory, and often the absurdity of police work in the Big Apple--this time through the eyes of an Irish immigrant who spent more than 20 years as one of New York's finest"--
[Stop and Frisk](#) Feb 09 2021 Police have been stopping, questioning, and frisking pedestrians for decades in an effort to protect themselves and the public from harm. However, pedestrians may view the stop and frisk experience as unjustified and perceive that they are subject to unfair and overly aggressive treatment. These feelings are most pronounced for those residing in high-crime areas that are targets for intensive stop and frisk activities. Because citizens' views of the police contribute to their willingness to cooperate with and empower law enforcement, minimizing the negative effects of stop and frisk is crucial for overall police effectiveness and is especially important for improving relations with communities of color. This publication discusses the constitutionality and legal precedents of stop and frisk and the theory and

practice behind these street stops. This background is followed by a discussion of stop and frisk's unintended consequences and a series of practical recommendations for the lawful and respectful use of pedestrian stops in the context of community policing.

Evaluation of the New York City Police Department Firearm Training and Firearm-discharge Review Process

Dec 22 2021 "In January 2007, New York City Police Commissioner Raymond Kelly asked the RAND Corporation to assess whether his department was doing everything it could to minimize the unnecessary discharge of firearms. In particular, he asked RAND to examine the quality and completeness of the New York City Police Department firearm-training program and identify potential improvements in the design and delivery of the curriculum, the technology used, the frequency and duration of training sessions, the tactics and procedures on which the training is based, and the Department's firearm-discharge-review process. This monograph reports the observations, findings, and recommendations of that study."--BOOK JACKET.

Law Enforcement Intelligence Jan 23 2022 This intelligence guide was prepared in response to requests from law enforcement executives for guidance in intelligence functions in a post-September 11 world. It will help law enforcement agencies develop or enhance their intelligence capacity and enable them to fight terrorism and other crimes while preserving community policing relationships. The world of law enforcement intelligence has changed dramatically since September 11, 2001. State, local, and tribal law enforcement agencies have been tasked with a variety of new responsibilities; intelligence is just one. In addition, the intelligence discipline has evolved significantly in recent years. As these various trends have merged, increasing numbers of American law enforcement agencies have begun to explore, and sometimes embrace, the intelligence function. This guide is intended to help them in this process. The guide is directed primarily toward state, local, and tribal law enforcement agencies of all sizes that need to develop or reinvigorate their intelligence function. Rather than being a manual to teach a person how to be an intelligence analyst, it is directed toward that manager, supervisor, or officer who is assigned to create an intelligence function. It is intended to provide ideas, definitions, concepts, policies, and resources. It is a primera place to start on a new managerial journey. Every law enforcement agency in the United States, regardless of agency size, must have the capacity to understand the implications of information collection, analysis, and intelligence sharing. Each agency must have an organized mechanism to receive and manage intelligence as well as a mechanism to report and share critical information with other law enforcement agencies. In addition, it is essential that law enforcement agencies develop lines of communication and information-sharing protocols with the private sector, particularly those related to the critical infrastructure, as well as with those private entities that are potential targets of terrorists and criminal enterprises. Not every agency has the staff or resources to create a formal intelligence unit, nor is it necessary in smaller agencies. This document will provide common language and processes to develop and employ

an intelligence capacity in SLTLE agencies across the United States as well as articulate a uniform understanding of concepts, issues, and terminology for law enforcement intelligence (LEI). While terrorism issues are currently most pervasive in the current discussion of LEI, the principles of intelligence discussed in this document apply beyond terrorism and include organized crime and entrepreneurial crime of all forms. Drug trafficking and the associated crime of money laundering, for example, continue to be a significant challenge for law enforcement. Transnational computer crime, particularly Internet fraud, identity theft cartels, and global black marketeering of stolen and counterfeit goods, are entrepreneurial crime problems that are increasingly being relegated to SLTLE agencies to investigate simply because of the volume of criminal incidents. Similarly, local law enforcement is being increasingly drawn into human trafficking and illegal immigration enterprises and the often associated crimes related to counterfeiting of official documents, such as passports, visas, driver's licenses, Social Security cards, and credit cards. All require an intelligence capacity for SLTLE, as does the continuation of historical organized crime activities such as auto theft, cargo theft, and virtually any other scheme that can produce profit for an organized criminal entity. To be effective, the law enforcement community must interpret intelligence-related language in a consistent manner. In addition, common standards, policies, and practices will help expedite intelligence sharing while at the same time protecting the privacy of citizens and preserving hard-won community policing relationships.~

Policing Major Events Jun 15 2021 Whenever a major event requires police intervention, questions are raised about the nature of the police response. Could the police have prevented the conflict, been better prepared, reacted more quickly? Could they have acted more forcefully or brought the altercation under control more effectively? Based upon real case studies of events from all over the world, this volume explores the complex set of factors comprising the policing of major events. Topics covered include: Police procedures in Serbia in response to sporting events and violence The 2010 World Cup in South Africa as a model of best practice in governance structures, along with the region's struggles in routine policing initiatives Security operations at the 2010 Winter Olympic Games in Canada and the Summer Olympic and Paralympic Games in London in 2012 Community involvement to curb terrorist insurgency in North Eastern Nigeria Governmental response to Hurricane Katrina in Louisiana and Texas Revisions made to NYPD protocols following the September 11 attacks Policing strategies for major events on Aboriginal and tribal lands across Canada Other topics include the police/protestor relationship and low-profile versus high-profile policing strategies in crowd control, the growing strategy of private security in working with public police forces, and enhancing public safety in post-conflict regions. The concepts presented in Policing Major Events: Perspectives from Around the World will enable police departments to improve their readiness for policing major events across a diverse set of

"Kettling" Protesters in the Bronx Jul 05 2020

Routledge International Handbook of Critical Gang Studies Nov 08 2020 Routledge International Handbook of Critical Gang Studies is rooted in the instability, inequality and liquidity of the post-industrial era. It understands the gang as a complex and

contradictory phenomenon; a socio-historical agent that reflects, responds to and creates a certain structured environment in spaces which are always in flux. International in scope and drawing on a range of sociological, criminological and anthropological traditions, it looks beyond pathological, ahistorical and non-transformative approaches, and considers other important factors that produce the phenomenon, whether the historically entrenched racialized power structure and segregation in Chicago; the unconstrained state-abandoned development of favelas in Brazil; or the colonization, displacement and dependency of people in Central America. This handbook reflects and defines the new theoretical and empirical traditions of critical gang studies. It offers a variety of perspectives, including: A view of gangs that takes into consideration the global context and appearance of the "gang" in its various forms and stages of development; An appreciation of the gang as a socio-cultural formation; A race-ethnic and class analysis of the gang that problematizes domain assumptions such as the "underclass"; Gender variations of the gang phenomenon with a particular emphasis on their intersectional properties; Relations between gangs and the political economy that address the dominant mode of production and exchange; Treatments that demonstrate the historically contingent nature of gangs and their changes across time; The contradictory impact of gang repressive policies, institutions and practices as part of a broader discussion on the nature of the state in specific societies; and Critical methodologies on gangs that involve discussions of visual and textual representations and the problematics of data collection and analysis. Authoritative, multi-disciplinary and international, this book will be of interest to criminologists, sociologists and anthropologists alike, particularly those engaged with critical criminology/sociology, youth crime, delinquency and global social inequality. The Handbook will also be of interest to policy makers and those in the peacebuilding field.

Street Justice Dec 30 2019 Street Justice

traces the stunning history of police brutality in New York City, and the antibrutality movements that sought to eradicate it, from just after the Civil War through the present. New York's experience with police brutality dates back to the founding of the force and has shown itself in various forms ever since: From late-nineteenth-century "clubbing"-the routine bludgeoning of citizens by patrolmen with nightsticks-to the emergence of the "third degree," made notorious by gangster movies, from the violent mass-action policing of political dissidents during periods of social unrest, such as the 1930s and 1960s, to the tumultuous days following September 11. Yet throughout this

varied history, the victims of police violence have remained remarkably similar: they have been predominantly poor and working class, and more often than not they have been minorities. Johnson compellingly argues that the culture of policing will only be changed when enough sustained political pressure and farsighted thinking about law enforcement is brought to bear on the problem.
NYPD Aug 30 2022 Traces the history of the world's largest municipal police force from its founding in 1845 to the present day, revealing an organization fraught with hidden conflicts between politicians, bureaucrats, and the cops on the beat.
